Education

MS, Environmental and Natural Resource Economics; University of Rhode Island (2015-2017 expected)

Working Thesis title: Effects of Uncertainty and Ambiguity in a Bargaining Setting

BS, Economics; Pennsylvania State University (University Park) (2011-2015)

Minor: Environmental and Renewable Resource Economics

Experience

Research Assistant *University of Rhode Island (Jan. 2016 - Present)*

Conducted economic experiments and performed analysis of the effects of uncertainty and ambiguity on bargaining behavior. Funded under a NSF EPSCoR grant on The Future of Dams

Sustainability Intern *Enel Green Power (Jun-Aug 2016)*

Built an economic impacts tool that predicted changes in community employment and compensation based on community policy and specifications of company planned wind farms.

Environmental Policy Intern *Save the Harbor/Save the Bay (May-Aug 2015)*

Conducted research independently to create press releases and reports for policy makers about the water quality of Boston Harbor and the Boston beaches.

Research Assistant *Penn State University (Sep 2013 - May 2015)*

Performed multivariate analysis regarding economic factors and implications of the increase of Marcellus Shale fracking.
